CAREER OBJECTIVE

I am actively looking for new opportunities and constantly striving to learn new technologies and seeking for a challenging career with an organization that will provide an opportunity to exploit my technical skills and abilities in the field of information technology.

EDUCATION

Bachelor of Science, Information Technology   09/2016 – 07/2020
New Jersey Institute of Technology

- **Major:** Information Technology

- **Specialization:** Management Information Systems

- Related course work: Wireless Networks, E-commerce Technology, Requirement Analysis and Systems Design, Computing Applications in Business, System Integration, Computer Systems and Networks, Database Design and Management Applications, Internet Applications

Associates of Science, Computer Science

Middlesex County College   09/2014 – 05/2016

SKILLS & PROJECTS

- **SQL**: - Structured Query Language, which is a computer language for storing, manipulating and retrieving data stored in a relational database. Created tables for user registration and user information for both the projects below

- **PHP**: - Personal home page (PHP) is open source scripting language, used it to create login/ registration for the Sport league Website and Tic-tac-toe game

- **HTML**: - Hypertext Markup Language, a standardized system for tagging text files to achieve font, color, graphic, and hyperlink effects on World Wide Web pages

- **Python**: - Interpreted, high-level and general-purpose programming language

- **Java**: - Java is a class-based, object-oriented programming language that is designed to have as few implementation dependencies

- **JavaScript**: - An object-oriented computer programming language commonly used to create interactive effects within web browsers

- **Web Application Tic-Tac-Toe game with PHP**
  o This game lets the user login, register and play with Artificial Intelligence. Results of the game will show if the user won, lost or draw
  o Link:- https://web.njit.edu/~dp537/IT202/Milestone2/tic-tac/
  o GitHub: - https://github.com/dp537

- **Web Application (Sports League)**
  o Built a Sports Fantasy League Website where users can chat with each other and watch live sports scores of games playing
  o GitHub: - https://github.com/bel124/IT490-003
